

Sexual Health services

Our team provide free testing, treatment, management and counselling for sexually transmissible infections, HIV and hepatitis. We also offer free sexual health services for:

- men who have sex with other men
- people living with HIV
- sex workers
- Aboriginal people
- pregnant people
- people diagnosed with a sexually transmitted infection
- people who inject drugs
- trans and gender-diverse people
- people from culturally and linguistically diverse backgrounds

We also provide the following services:

- PrEP for patients who do not have Medicare
- contraception
- pregnancy testing and counselling
- condoms and lubricant
- needle and syringe programs and sexual health check-ups for people who inject drugs
- Post Exposure Prophylaxis (PEP) for HIV
- vaccinations (relevant to sexual health)

Your first visit to the clinic

We will complete your registration and a brief health history over the phone or when you visit the clinic for your first appointment. The information you provide will remain confidential and stored in a numbered electronic file. When you call to book, a nurse will determine whether you need to see a doctor or nurse for a medical issue or a counsellor to discuss information on sexual health, safer sex or relationship issues.

Frequently asked questions

Do I need an appointment to attend the clinic?

Yes, it is preferable for you to book an appointment before attending the clinic.

Do I need a Medicare card to attend the clinic?
